

SLIM COUNTER

BUILDING BLOCKS

Application

Configurable counter module

Market

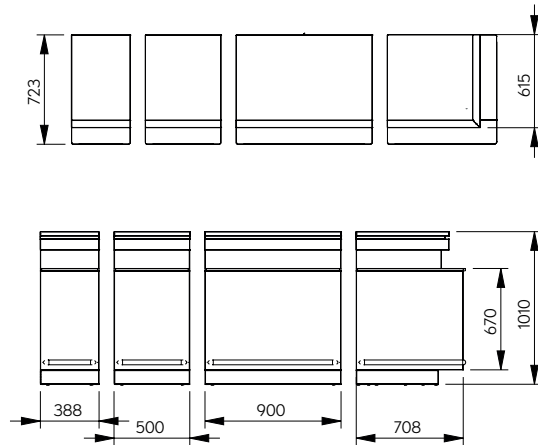

Food & Grocery, Non-Food, Health & Beauty, DIY

Purpose

The SLIM Counter Modules are used to configure a service counter. The three different module sizes and corner module can be configured in a flexible way to create a service counter that matches every retailer's wishes. The service counter can for example be used in grocery, non-food or do-it-yourself stores.
